ABOUT US

Our name is Creative Cables and since 2013 we like to illuminate the places our customers love.

At Creative Cables, customers find thousands of cables, components and accessories allowing them to dream, design and create the lamp they want - but that's not all!

Creativity is the basis of our brand, but we also have a wide range of ready-made solutions, lamps to suit every taste and style.

WE BELIEVE IN LIGHTING

FUN

Colors, patterns, finishes and shapes that stimulate creativity.

CUSTOMIZABLE

In 99.99% of cases, the answer is yes, we can do it.

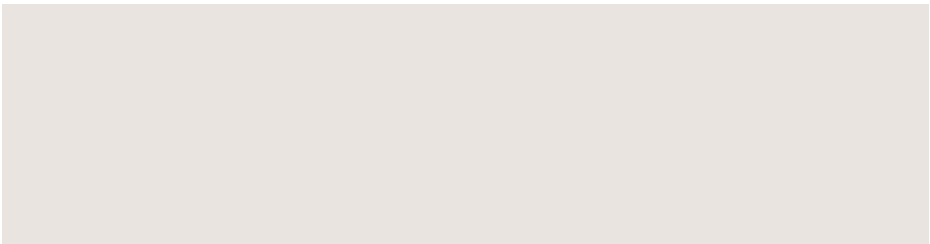

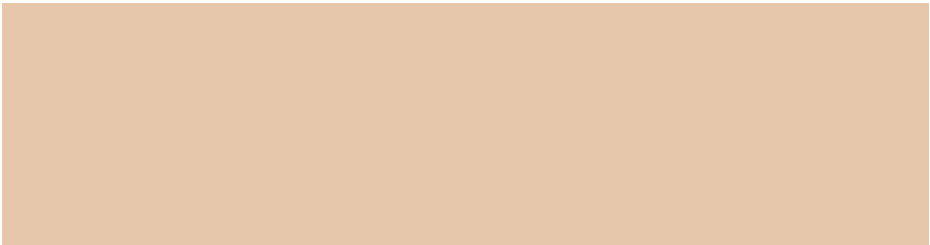

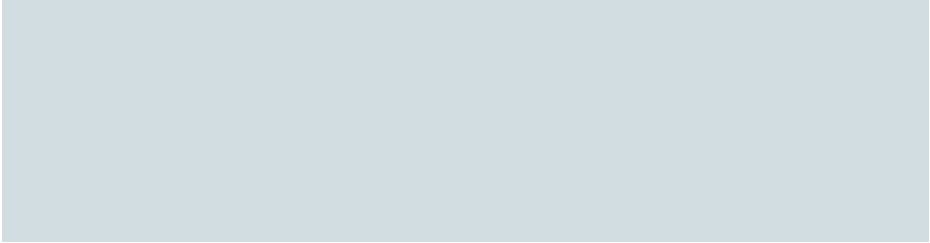

ACCESSIBLE

Our design is accessible to everyone.

The first wireable IP65 Outdoor lighting system.

Create your own water, rain and storm
resistant lighting solution.

MADE IN ITALY

Water has never been a natural environment for light.
Until today.

Easy

Create an impressive lighting installation in just a few steps. Filé lets you forget about the difficulty and effort of wiring up a lamp holder!

Tailor-made

The rectangular section cable features an IP44 protection classification, meaning that you can also light up bathrooms and kitchens creatively using Filé!

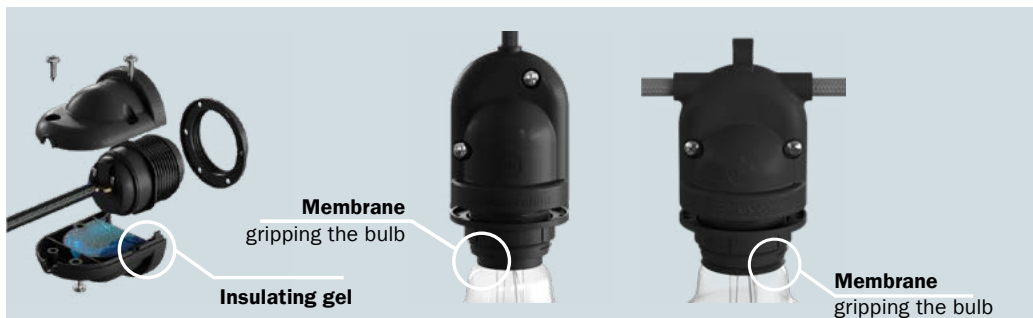

Moisture-protection

Create designs on the walls and ceilings using electrical cables available in more than 20 colors and Made in Italy wooden components. Create effective lighting, tailored to your lighting and design requirements.

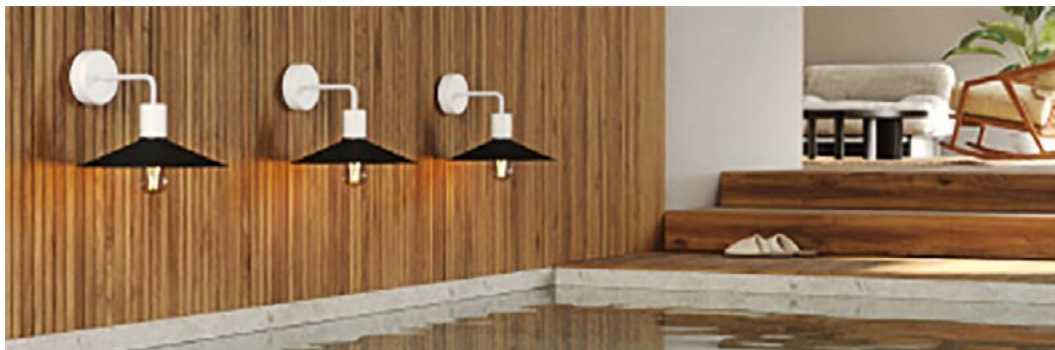

IP65: Water and rain resistant

The heart of EIVA is the world's wired E27 IP65 lamp holder: thanks to the insulating gel inside and a watertight membrane on the bulb, this lamp holder withstands rain and storms in complete safety.

Patented Solution

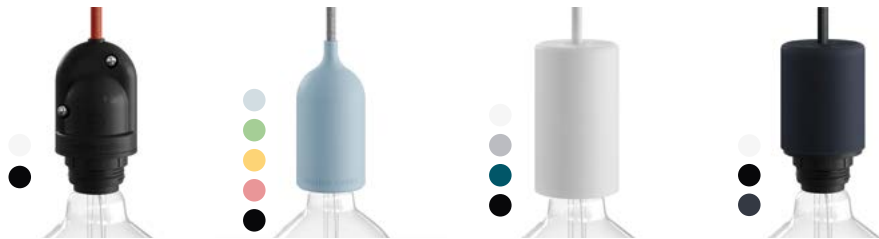

**Designed for outdoor, perfect for indoor.**

The EIVA lighting system is designed, engineered and patented by Creative-Cables to allow you to illuminate outdoor spaces like gardens, patios and terraces but is also an excellent solution for bathrooms, SPAs, and other indoor areas exposed to humidity.

Lampholders

Configure your EIVA system by choosing the components that best suit your needs. IP65 single entry lamp holders can be purchased naked or with a soft touch silicone cover: perfect for single pendants or wall lamps.

Multiple input components

The multiple entry IP65 components (Eiva 2 and Eiva T01) allow to create solutions with several light sources, distributed over a wide range and connected by an EIVA cable.

Ceiling roses and plugs

The IP65 soft-touch silicone ceiling rose and the IP44 plug will allow you to complete your lighting using a wall/ceiling connection or a socket.

Fabric Cables

Designed for the EIVA waterproof lighting system, all of our fabric cables are made in Italy.

Specifications:

H05RN-F 300/500 VAC 2x1mm²

Rubber sheathed flexible round IMQ-HAR Cable DOUBLE INSULATION under textile braid.
Standard reference: EN 50525-2-11, Low Voltage European Directive No. 2014/35/EU.

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

It means the fabric used to line these cables was designed to resist UV rays, which make up around 10% of sunlight. The colour of UV resistant cables remains vibrant and doesn't tend to fade over time, even when they are consistently exposed to sunlight.

Three pendants with lampshades, two knots.

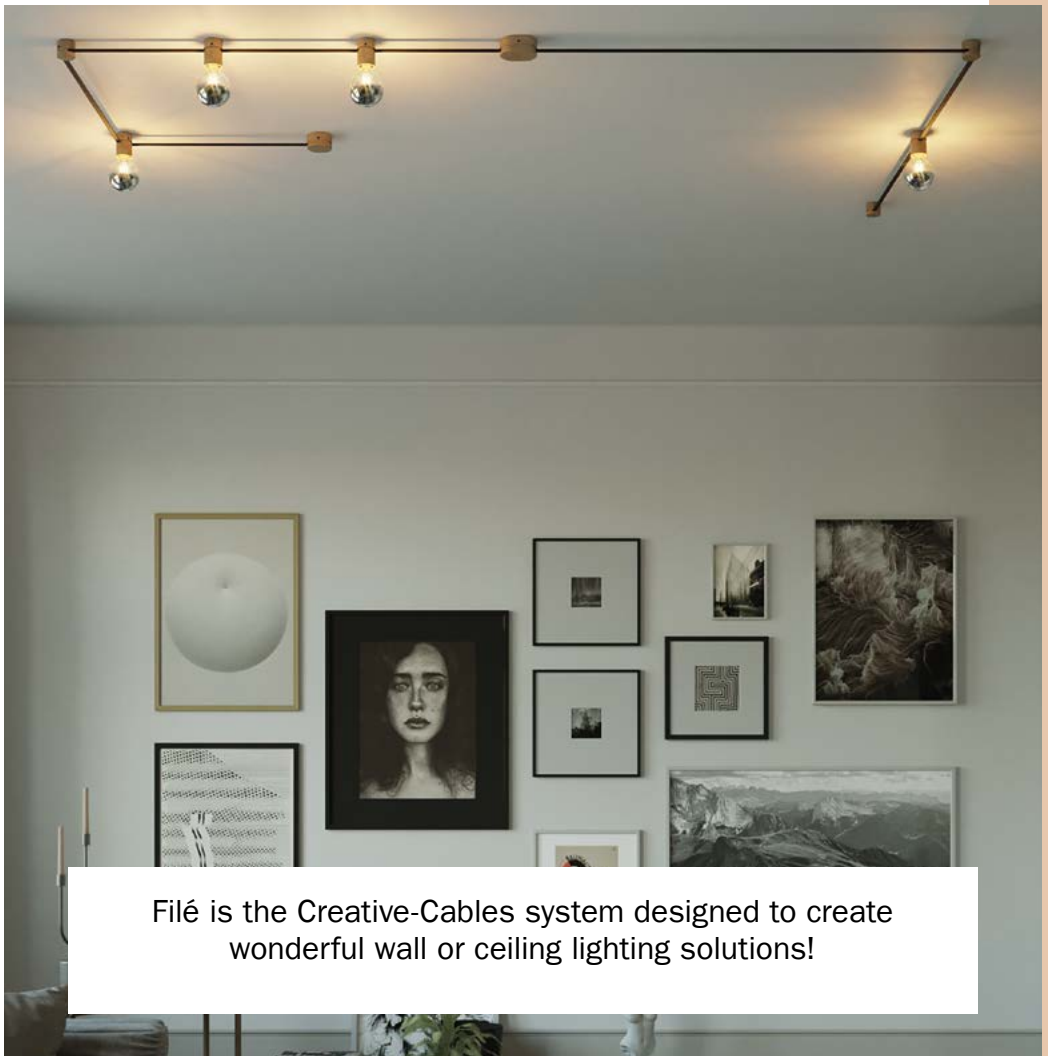

**Decorate and light up your walls
with the Filé SYSTEM.**

Rectangular section cables covered in magnificent colours,
high-quality wooden components Made in Italy: with Filé you
can build a customized and 100% Creative lighting solution!

MADE IN ITALY

Filé is the Creative-Cables system designed to create
wonderful wall or ceiling lighting solutions!

Easy

Create an impressive lighting installation in just a few steps. Filé lets you forget about the difficulty and effort of wiring up a lamp holder!

Tailor-made

The rectangular section cable features an IP44 protection classification, meaning that you can also light up bathrooms and kitchens creatively using Filé!

Moisture-protection

Create designs on the walls and ceilings using electrical cables available in more than 20 colors and Made in Italy wooden components. Create effective lighting, tailored to your lighting and design requirements.

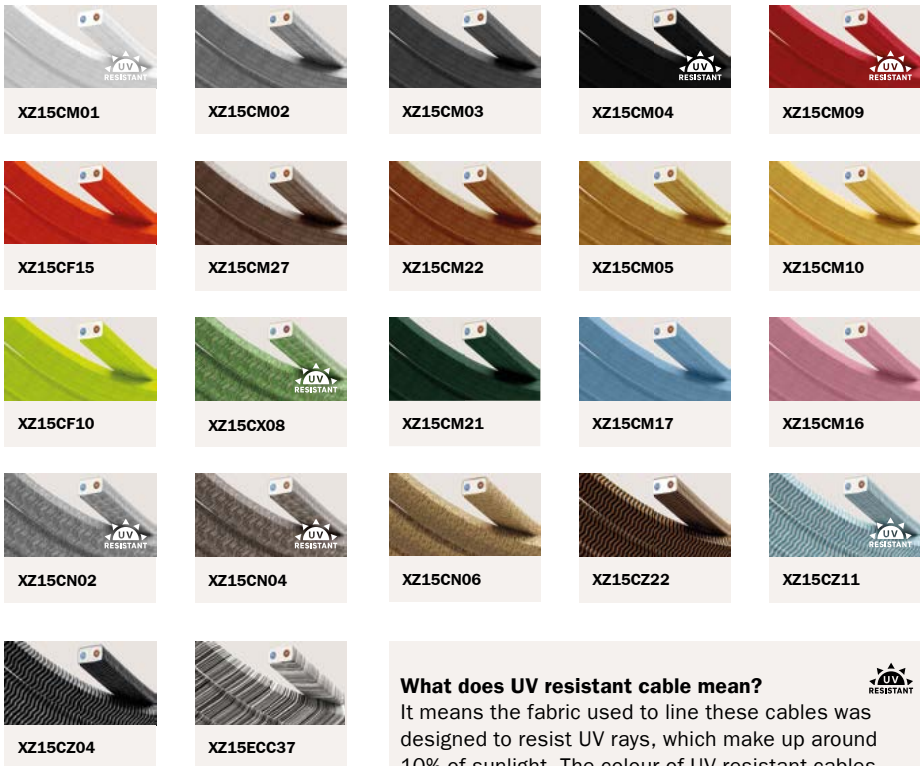

Specifications:

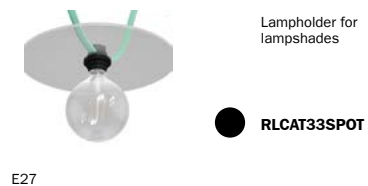

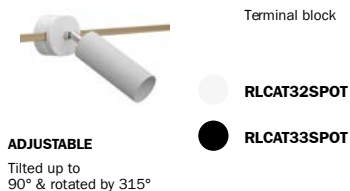

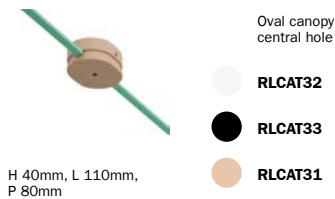

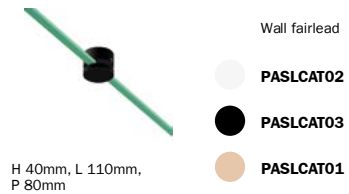

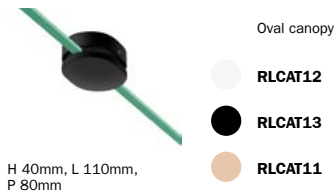

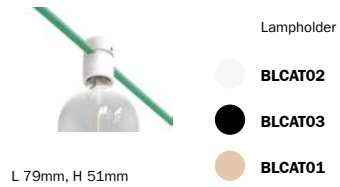

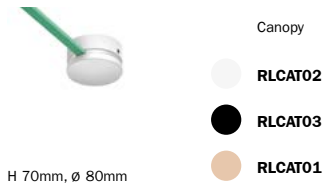

H05RNH2-F 300/500 VAC Rectangular flat shaped 2x1,5mm² cable
 No flame propagation: in accordance with EN 60332-1-2/IEC 60332-1
 Referring Regulations: EN 50525-2-82 and IEC 60245

The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 25 meters in length.

FILÉ SYSTEM COMPONENT

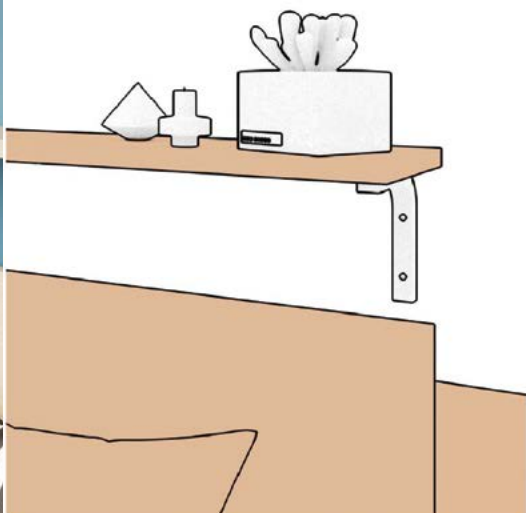

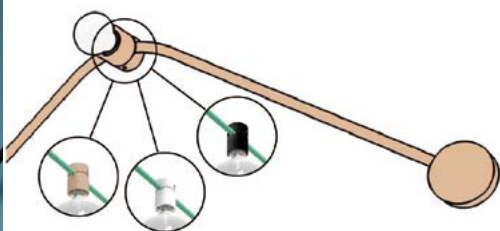

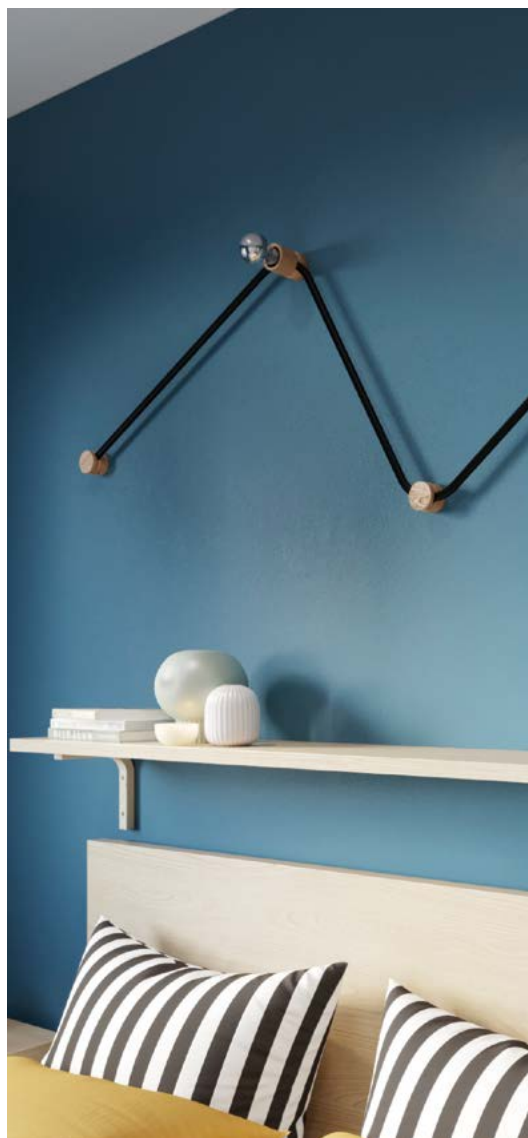

All components are wooden and 100% Italian made, you can paint, varnish or leave the wood natural to suit your needs and creative projects.

The Wiggle kit has been designed to help you re-create a simple yet unusual zigzag design on your walls. The kit is available in multiple versions: choose the color of the cable and of the components to best suit your design needs. It is composed of 3m of cable, 1 round canopy, 2 lamp holders E27, 1 wall fairlead and 1 terminal block.

**The timeless charm of porcelain meets
the boundless world of Creative-Cables.**

Diverters, sockets, junction boxes, lampholders and ceiling roses:
fun, unique products to upgrade your electrical systems from
ordinary to extraordinary.

MADE IN ITALY

Turn your wall mounted electrical installations into
vintage accessories has never been easier.

PORCELAIN COMPONENTS

Smooth, dazzling, refined.

Porcelain is the undisputed queen in the field of interior design and decor with its material's unsullied elegance and technical qualities.

So it only felt natural to design a collection of stunning and high quality porcelain components to spruce up your electrical installations whilst avoiding invasive adjustments to your walls.

Modular, ready-to-use components with optimal isolating qualities and mechanical resistance come together to create a colourful, bubbly wall mounted electrical system where past and present blend perfectly.

Knob or butterfly nut? Both Creative-Cables designed porcelain electric switches add vintage allure to any external wall system. On top of being functional, this component also constitutes a decorative element that enhances the decor whilst adding a pop of colour: you'll also be able to choose from a wide range of colours to either complement the room or create a fun contrast.

SPØSTALUCE

**No matter the lamp, the layout or the setting...
the right answer is Spostaluce!**

All you need to do is connect the Spostaluce lamp plug to the nearest electrical socket and attach the lamp to your room's wall or ceiling. It couldn't be simpler!

Patented Solution
MADE IN ITALY

SPOSTALUCE SYSTEM

Say goodbye to dark corners with the versatile Spotaluce.

Choosing the placement for ceiling and wall lamps can be a daunting task, and you may feel constrained by your existing sockets or light sources. That's where Spotaluce comes in, allowing you to effortlessly transform the lighting in your home. It's not only easy but also enjoyable, thanks to a wide selection of elegant and fun-colored textile cables.

Fresh light and easy installation

A creative solution for introducing new lighting sources throughout your home. Save yourself the trouble of tearing down walls and hiring electricians.

Crafted specifically for lampshades, this versatile Spostaluce E27 kit offers endless possibilities for custom illumination. It's the perfect solution for creating a personalized lighting arrangement on any wall or ceiling, even in spaces without existing light fixtures.

**Create your own personalized,
visible wiring installation.**

Creative-Tubes is the system that combines the beauty of the fabric covering with the practicality of a true surface wall system.

MADE IN ITALY

The Tubes system eliminates the need for ugly plastic electrical conduits or rigid metal pipework.

CREATIVE TUBES COMPONENTS

Flexible

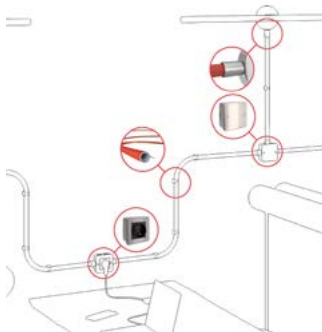

Creative-Tube combines the fabric-covered sheath with two metal filaments, allowing the conduit to maintain its shape when bent. It adapts to suit your needs.

Custom

Create a beautiful and functional bespoke visible system that takes into account your daily needs and the style of your rooms.

Creative and safe

You have the freedom to exhibit your electrical system. Create a wall design that is a functional light source without sacrificing safety; the system adheres to the highest standards.

Bebulbs

Bebulbs stands for "Beauty in Bulbs": a new brand that offers refined, high-quality light bulbs at an accessible price. For domestic or professional use, outdoors or indoors.

FIRST AND FOREMOST, CHARMING

The Bebulbs light bulbs were designed as the centrepiece for each lamp, and look good with or without a lampshade, with lights on or off.

The essence on Bebulbs is the focus on detail: we tried pairing simpler shapes to more unusual ones, balancing different sizes and finishes. A beautiful and functional product that uses the thinnest filaments found on the market today to mimic the essence of vintage incandescent light bulbs, whilst in other cases straight or curved filaments are juxtaposed to create high luminous flux light bulbs.

EVEN REDUCING THE TENSION

Exploring the infinite forms of light sources, we opted for flexibility, both for indoor and outdoor use. We also took it one step further, beyond the traditional 220-240V, introducing a range of designer 5V light bulbs.

EFFICIENT DESIGN AND PACKAGING

Bebulbs are all based on LED technology, ensuring a sustainable, energy-saving light bulb. Our high luminous flux line furthermore provides a powerful lightsource without compromising the bulbs life span. A fresh and colourful packaging makes for a great visual impact and a pleasant experience while looking through the shop shelves for your Bebulb.

Bēbulbs

C LINE

The light bulbs of our Carbon Line Collection are all designed with an ultra-thin LED filament, to bring back the charm and aesthetics of traditional incandescent carbon light bulbs.

This patented filament is currently the thinnest one on the market, and creates a warm and intimate ambience thanks to its soft, suffused lighting.

H LINE

The light bulb collection that combines the beauty of geometrical shapes with the charm of our double filament: one curved, which adds airiness and grace, and one straight for direct and powerful lighting.

The High Flux light bulb collection is ideal to illuminate any environment or space and is available in different finishes: clear, gold, or smoky. They are also dimmable, which means they adapt perfectly to any situation: harsher, stronger lighting to increase productivity or soft, relaxed lighting to wind down after a long day.

Bebulbs

B LINE

Vintage shell with a modern core: introducing our 5 Volt light bulb collection, compatible only with 5V-powered lamps.

These light bulbs were designed to be charming and versatile: 5V lamps are commonly powered by USB cords, batteries or power banks and they are also dimmable by altering the voltage or the current.
